Help Us Spread the Word About Census Bureau Data!

Project Title	Help Us Spread the Word About Census Bureau Data!
Project Summary	Help the Census Bureau’s Communications Directorate expand our digital engagement through communications, data visualization, and graphic design. Explore marketing metrics, visualize data, and design new content to increase the use of Census Bureau data.
Country	United States

Project Description

The Census Bureau’s mission is to serve as the nation’s leading provider of quality data about its people and economy. We're always looking for innovative ways to make Census Bureau statistics more accessible, useful, interesting, and relevant. And we need your help to help spread the word!

Responding to Census Bureau surveys helps your community get its fair share of funding. Census Bureau data guide how more than $675 billion in federal funding is distributed to states and communities each year. This information can help your community create jobs, provide housing, prepare for emergencies, and build schools, roads, and hospitals.

We are seeking an inspired intern to help us develop new infographics, animated gifs, data visualizations, social media graphics, and short form videos. If you join our team, you will work with advanced technologies and hone your marketable skills in the fields of visual design, agile project management, and digital communications.

Required Skills or Interests

Skill(s)
Data visualization
Design thinking
Graphic design
Infographic design
Marketing
